Re: **Results of the 2022 General Audit**

Audit Report – 2022 General Election

The 2022 General Audit was conducted in accordance with S.B. 366 (2022). The Secretary of State, using a randomized selection process, selected the AccuVote electronic ballot counting devices in Pembroke, Tilton, Durham, and Somersworth Ward 3.

Findings:

1. Exhibit 1: Post-Election Audit Worksheet for Pembroke, signed and certified by participating members of the Audit Team. The Audit Team found that the audit of the Pembroke AccuVote electronic ballot counting device was successful, and results were within the expected margins.

2. Exhibit 5: Post-Election Audit Worksheet for Tilton, signed and certified by participating members of the Audit Team. The Audit Team found that the audit of the Tilton AccuVote electronic ballot counting device was successful, and results were within the expected margins.

3. Exhibit 7: Post-Election Audit Worksheet for Durham, signed and certified by participating members of the Audit Team. The Audit Team found that the audit of the Durham AccuVote electronic ballot counting device was successful, and results were within the expected margins. Durham Moderator Christopher Regan, an appointed member of the Audit Team, recused himself from this audit.

4. Exhibit 9: Post-Election Audit Worksheet for Somersworth Ward 3, signed and certified by participating members of the Audit Team. The Audit Team found that the audit of the Somersworth Ward 3 AccuVote electronic ballot counting device was successful, and results were within the expected margins.

Pembroke AccuVote Machine Audit

1. Number of Ballots

1. AccuVote Long-Tape Count: 3241

2. Clear Ballot Count: 3248

2. Discrepancies

1. No discrepancies were detected, following a visual scan of a random sample of 5% of the ballots, between the voters' choices recorded on the ballot against the candidate credited with a vote by the Clear Ballot ballot counting device.

2. There was a seven-ballot difference in the number of ballots counted by the Clear Ballot ballot counting device versus the number of ballots recorded on the AccuVote long-tape. Part of the difference may be credited to potential jams that the Poll Officials mistakenly believed were

counted by the machine. In particular, the Clear Ballot ballot counting device recorded two ballots with overvotes. In the Governor's race, a vote is clearly intended for Chris Sununu, however, the bubble for write-in has some coloring over it (Exhibit 2). The AccuVote device likely would have rejected this ballot as an overvote, however, it is possible that this ballot was jammed and Poll Officials mistakenly thought the ballot was counted by the machine and therefore placed in the ballot bin below the AccuVote device. This same, potential explanation would apply to a ballot that Clear Ballot indicated was an overvote (Exhibit 3). Here, the voter crossed out a filled-in oval over "Yes," filled in the oval for "No," and circled the oval for "No," clearly indicating their intent to vote "No" on the first Constitutional question. The AccuVote would have rejected this ballot as an overvote, however, the same possibility with the first reported overvote could have occurred.

3. Exhibit 4: Attached to this report is a document memorializing the number of votes credited to each candidate by the Clear Ballot ballot counting device, which is printed in the left column, and the number of votes credited to each candidate by the AccuVote ballot counting device written in by hand in the right column. This document shows any discrepancies in the number of votes for each candidate between the two devices.

Tilton AccuVote Machine Audit

1. Number of Ballots
 1. AccuVote Long-Tape Count: 1546
 2. Clear Ballot Count: 1546
2. Discrepancies
 1. The Tilton AccuVote long-tape matched exactly to the Clear Ballot Report of Votes, with the exception of one race. In Tilton's Executive Councilor race, Dana S. Hilliard was credited 675 votes in the Clear Ballot report and 676 votes on the AccuVote long-tape, while 52 undervotes were recorded in the Clear Ballot report and 51 undervotes were recorded on the AccuVote long-tape.
 2. No discrepancies were detected, following a visual scan of a random sample of 5% of the ballots, between the voters' choices recorded on the ballot against the candidate credited with a vote by the Clear Ballot ballot counting device.
 3. Exhibit 6: Attached to this report is a document memorializing the number of votes credited to each candidate by the Clear Ballot ballot counting device, which is printed in the left column, and the number of votes credited to each candidate by the AccuVote ballot counting device written in by hand in the right column. This document shows any discrepancies in the number of votes for each candidate between the two devices.

Durham AccuVote Machine Audit

1. Durham's moderator, Attorney Christopher Regan, is an appointed member of the Audit Team. As part of the audit, Attorney Regan was not informed which AccuVote devices in which voting districts were randomly selected. At noon on Election Day, a representative of the Secretary of State's office delivered a letter informing Attorney Regan that Durham's AccuVote device was selected for the audit. During the audit on November 10, 2022, Attorney Regan was not involved in the audit of Durham's AccuVote device, and remained outside the guardrail as an observer for the duration of the Durham audit.
2. Number of Ballots
 1. AccuVote Long-Tape Count: 5873
 2. Clear Ballot Count: 5872
3. Discrepancies
 1. Prior to beginning the audit, Durham's Moderator informed the Audit Team that, during the course of the election, a ballot had jammed in the AccuVote machine. The Moderator believes the ballot was not read by the AccuVote device, however, when he went to unjam the ballot from beneath the AccuVote device, the ballot fell into the ballot bin and commingled with other ballots. It was therefore not possible to rescan the correct ballot.
 2. The Moderator also informed the Audit Team there was one ripped ballot. He placed the large portion of the ripped ballot at the top of one of the seal ballot boxes, but was unsure where the smaller piece of the ballot was in the sealed boxes. The ballot was not ripped when it was fed through the AccuVote device, rather, it was ripped when ballots were taken from a full bin and placed in the ballot boxes to be sealed early on election day. During the audit, the second part of the ballot was found in Ballot Box 5 of 7. The two parts of the ballot were taped together and fed through the Clear Ballot scanner in Target Card ID ED-020. A second ballot with a small tear at the top of the paper was also fed through the same Target Card ID.
 3. During the audit, the Clear Ballot scanner reported two unreadable ballots. The first ballot was in Target Card ID 036, and the second ballot was in Target Card ID 048. Each of these ballots were manually adjudicated after all ballots counted by Durham's AccuVote machine were scanned by the Clear Ballot ballot counting device. The Audit Team determined that the Clear Ballot scanner was not able to read the ballots because there was a fold in the ballot in the bottom corners. This fold interfered with the timing marks, rendering them unreadable by the scanner.
 4. No discrepancies were detected, following a visual scan of a random sample of 5% of the ballots, between the voters' choices recorded on the ballot against the candidate credited with a vote by the Clear Ballot ballot counting device.
 5. Exhibit 8: Attached to this report is a document memorializing the number of votes credited to each candidate by the Clear Ballot ballot counting device, which is printed in the left column, and the number of votes credited to each candidate by the AccuVote ballot counting device written in by hand in the right column. This document shows any discrepancies in the number of votes for each candidate between the two devices.

1. Number of Ballots
 1. AccuVote Long-Tape Count: 856
 2. Clear Ballot Count: 854
2. Discrepancies
 1. On Election Day, Somersworth simultaneously conducted a municipal election, therefore, the AccuVote device in Somersworth Ward 3 processed both state and city ballots. Prior to beginning the audit of Somersworth Ward 3's AccuVote device, the Audit Team diligently sorted through the ballots to ensure that only the state ballots were included in the audit.
 2. The Somersworth Ward 3 AccuVote long-tape reported 856 total ballots cast in the state election, while the Clear Ballot Statement of Votes reported 854 total ballots.
 3. No discrepancies were detected, following a visual scan of a random sample of 5% of the ballots, between the voters' choices recorded on the ballot against the candidate credited with a vote by the Clear Ballot ballot counting device.
 4. The Clear Ballot ballot counting device reported an overvote for the second Constitutional question (Exhibit 10). The Audit Team was unable to determine whether this overvote – which consists of a light "X" over both the "Yes" and "No" oval – was counted by the AccuVote device for either "Yes" or "No."
 5. Exhibit 11: Attached to this report is a document memorializing the number of votes credited to each candidate by the Clear Ballot ballot counting device, which is printed in the left column, and the number of votes credited to each candidate by the AccuVote ballot counting device written in by hand in the right column. This document shows any discrepancies in the number of votes for each candidate between the two devices.

2022 CONSTITUTIONAL AMENDMENT QUESTIONS
Constitutional Amendment Proposed by the 2022 General Court

1. Are you in favor of amending articles 71 and 81 of the second part of the constitution to read as follows: (Art. 71: [County Treasurers, County Attorneys, Sheriffs, and Registers of Deeds Elected] The county treasurers, county attorneys, sheriffs and registers of deeds shall be elected by the inhabitants of the several towns, in the several counties in the State, according to the method now practiced, and the laws of the state, provided nevertheless the legislature shall have authority to alter the manner of certifying the votes, and the mode of electing those officers; but not so as to deprive the people of the right they now have of electing them.

[Art. 81: [Judges Not to Act as Counsel] No judge shall be of counsel, act as advocate, or receive any fees as advocate or counsel, in any probate business which is pending, or may be brought into any court of probate in the county of which he or she is judge.] (Passed by the N.H. House 284 Yes 43 No. Passed by Senate 21 Yes 3 No.) CASR 21

Yes No

Question Proposed pursuant to Part II, Article 100 of the New Hampshire Constitution

2. Shall there be a convention to amend or revise the constitution?

Yes No
